

Armis Marketplace

A New Digital Hub

Armis Marketplace is the centralized hub for delivering tangible value to Armis customers through a curated selection of partner integrations, tools, extensions, reports, and services.

Force Multiplier to Your Armis Deployment

Discover a self-service, data-driven portal that connects you with ready-to-use solutions that work seamlessly with your Armis deployment.

Explore, request, and “Try and Buy” offerings directly, including a curated selection of partner integrations, tools, extensions, reports, and services.

Key Offerings:

- **External Exposure Management:** Receive a customized report of external exposure of your organization.
- **Security Controls Assessment:** Evaluate how well your security controls are configured and operating across a defined subset of your security stack.
- **Ai-Native Code Security:** Reveal vulnerabilities, exposed secrets, and compliance gaps across code, binaries and software dependencies.
- **Armis Centrix™ Chrome Extension:** Look up Armis asset data from any web page, by a simple right-click.
- **Armis Centrix™ for Early Warning Reports:** A one-time Early Warning Report on high-priority vulnerabilities in your environment.

Key Business Outcomes

Armis Marketplace shortens the evaluation process by providing you with tangible, free data-based insights, not just marketing brochures. Key outcomes include:

-  Faster decision-making through trial (and buy) access.
-  Expanded platform value without additional integration effort.
-  Delivers real actionable output (report, analysis) using your own deployment data.

Unlike Other Marketplaces...

The Armis Marketplace delivers data-driven insights, enabling you to test-drive and buy solutions tailored to your specific environment. It provides the clarity you need to make informed, high-impact business decisions.
